1C (i): RECORD YOUR ANSWERS:

INSTRUCTIONS:

Imagine I am a human who knows nothing about living on Earth or the social environment you live in. I want to know what it is like.

Please take out your mobile phone or a similar device that will allow you to make a voice recording of your responses to the following questions. Speak clearly, so you can play back your answers and listen to them later to complete the topic. Don't worry, nobody has to hear your recordings.

1. Hi, I do not know you, so I want to know more. Could you tell me in as much detail as possible what **SCARES** you?

2. I don't really understand properly why you would be scared of that. Could you explain to me what is it about this thing that creates this experience or feeling for you?

3. Where do you think this reaction you have comes from?

4. I hear everybody reacts to things differently. What do **you** do when you're in a situation with the 'scary' thing you just described?

5. I also hear there is a solution for everything. So what would you need to do to never be 'scared' of this thing ever again?
